

★ DESIGN TO ME — MASTER SUMMARY (2026 EDITION)

A life-design curriculum for people who are ready to live with intention, integrity, and agency.

WHAT DESIGN TO ME IS

Design to Me is a program about **self-authorship** — the ability to design a life that feels like yours.

It's not a self-help course.

It's not a productivity course.

It's not a "fix yourself" course.

It's a **thinking course** for your life.

It teaches you how to:

- See your patterns clearly
- Understand the systems you're living inside
- Make decisions with integrity
- Honour your energy and constraints
- Build a life that matches who you're becoming
- Create rituals and rhythms that sustain you
- Design your next chapter with intention

Design to Me is the personal counterpart to Design-Led.

Where Design-Led teaches you how to make good decisions in complex organisations,

Design to Me teaches you how to make good decisions in the complex organisation of your life.

THE CORE CLAIM

Your life is a system — and systems produce predictable outcomes.

If you want different outcomes, you don't need more willpower.
You need a different system.

Design to Me gives you the tools to redesign that system.

THE PROGRAM ARC

Across 12 modules, participants move through four layers:

1. Awareness

Understanding the patterns, stories, values, identities, and systems that shaped you.

2. Alignment

Reconnecting with what matters: values, energy, desire, belonging, boundaries.

3. Agency

Learning how to make decisions, set constraints, prototype changes, and design your life intentionally.

4. Integration

Building a Life Operating System — principles, rituals, rhythms, supports, and non-negotiables that sustain your next chapter.

THE MODULES AT A GLANCE

01 — Origin Story

Where you come from shapes how you design your life.
You identify the unconscious “life brief” you inherited and begin rewriting it.

02 — Values in Practice

Values aren't words — they're behaviours under pressure.
You discover your real values and your non-negotiables.

03 — Identity & Self-Concept

Who you think you are shapes what you think is possible.

You map the identity you're outgrowing and the one you're growing into.

04 — Energy & Capacity

Your life is designed by what you have energy for.

You map energy leaks, energy sources, and capacity constraints.

05 — Life Systems

Your life is a system. Systems produce predictable outcomes.

You map your work, relationships, self, and environment systems — and redesign them.

06 — Future Self

You can't design a life you haven't imagined.

You create a 12-month future-self map and identify the gaps.

07 — Decision Design

Your life is shaped by the decisions you make repeatedly.

You learn decision hygiene, decision matrices, and the "next right move" method.

08 — Prototyping Your Life

You don't need a plan. You need a prototype.

You design and run small, low-risk life experiments.

09 — Boundaries & Emotional Labour

Your life expands or contracts based on the boundaries you hold.

You identify emotional labour, boundary types, and scripts you can actually say.

10 — Relationships & Belonging

You become the people you're surrounded by.

You map your relationship ecosystem and redesign key dynamics.

11 — Ambition & Desire

Desire is data. Ambition is direction.

You map your desires, name the scary ones, and design ambition without burnout.

12 — Designing Your Next Chapter

Your next chapter is a design project.

You create a chapter title, themes, constraints, and a 90-day plan.

13 — Integration (Life OS)

Integration is the moment your life starts making sense.

You build your Life Operating System: principles, rituals, rhythms, supports, non-negotiables, and a personal manifesto.

WHAT PARTICIPANTS LEAVE ABLE TO DO

See clearly

- Understand their patterns
- Name their values
- Identify their constraints
- Recognise their emotional labour
- Map their systems

Decide wisely

- Use decision hygiene
- Make principled choices
- Honour their energy
- Set boundaries
- Choose the next right move

Act intentionally

- Prototype changes
 - Build supportive rituals
 - Design sustainable rhythms
 - Align behaviour with identity
 - Create a Life OS they can actually live inside
-

THE TONE & EXPERIENCE

Design to Me is:

- Deep but not heavy
- Practical but not clinical
- Emotional but not indulgent
- Structured but not rigid
- Human, grounded, and honest

It's the kind of work that feels like clarity, relief, and possibility.

If you want, I can now generate:

- The **full module-by-module curriculum** (like the Design-Led master doc)
- The **slide decks** (Modules 01–12)
- The **facilitator guide**
- The **participant workbook** (already started)
- A **marketing one-pager**
- A **Notion version**
- A **visual identity / slide template**

Just tell me what you want next.

Absolutely, Jacinta — here is the **full module-by-module curriculum for Design to Me**, written in the *exact same structure, tone, and level of detail* as the Design-Led master document you shared.

This is the **authoritative master curriculum** for the personal-development program — the life-design counterpart to Design-Led.

It includes:

- Narrative framing
- Core claim
- Full session flow (beats + content)
- Participant outcomes
- Methods
- Page-break markers
- Signature Jacinta tone (warm clarity with a backbone, grounded, human, emotionally intelligent)

This is **PART 1 (Modules 01–06)**.

Once you confirm the structure is perfect, I'll deliver **PART 2 (Modules 07–12)**.

★ DESIGN TO ME — FULL CURRICULUM (2026 EDITION)

*Warm clarity with a backbone. Grounded. Human. Emotionally intelligent.
Life-design for real humans in real systems.*

<div style="page-break-after: always;"></div>

MODULE 01 — ORIGIN STORY

Where you come from shapes how you design your life.

Framing

Most people live by a “life brief” they never wrote.

It’s inherited — from family, culture, school, early roles, survival strategies.

This module surfaces the patterns, rules, and stories that shaped you so you can choose what to keep and what to retire.

Core Claim

Your past isn’t your prison — it’s your pattern library.

You can’t redesign your life until you understand the system that built you.

Session Flow

Beat	Content
OPEN	Everyone has an origin story. Most people have never examined theirs.
CONTEXT	The unconscious life brief: what you were taught to optimise for (achievement, harmony, safety, approval).
CONCEPT 01	Early patterns — behavioural, emotional, relational. Adaptations, not flaws.
QUICK HIT 01	“What did the world teach you to optimise for?”
CONCEPT 02	Hidden rules — the unspoken constraints that shape your choices (“Don’t be too much”, “Be useful”, “Don’t need anything”).
ACTIVITY 01	Identify your hidden rule. Write the rule you want instead.
DEBRIEF	“What shifts when you name the rule out loud?”

CONCEPT 03 The 5-sentence origin story — a structured way to reclaim authorship.

QUICK HIT 02 “What part of your story are you ready to retire?”

ACTIVITY 02 Write your 5-sentence origin story. Share one sentence.

CLOSE One takeaway. One truth you’re ready to claim. Next: Values in Practice.

Participants Leave Able To

- Identify the unconscious brief shaping their life
- Name early patterns and hidden rules
- Rewrite their origin story with agency

Methods

Pattern identification · narrative reframing · reflective writing · facilitated sharing

<div style="page-break-after: always;"></div>

MODULE 02 — VALUES IN PRACTICE

Values aren’t words. They’re behaviours under pressure.

Framing

Most people list values they *wish* they lived by.

But your real values show up in your behaviour — especially under stress.

This module helps participants identify their actual values, their non-negotiables, and the conflicts between them.

Core Claim

Values are only real when they cost you something.

Session Flow

Beat	Content
OPEN	“What are your values?” Most people answer with branding, not truth.
CONTEXT	Real values vs aspirational values. Behaviour as evidence.
CONCEPT 01	The stress test — which value collapses first under pressure?
QUICK HIT 01	“Which value do you betray when you’re overwhelmed?”
CONCEPT 02	Value conflicts — freedom vs stability, ambition vs rest, care for others vs care for self.
ACTIVITY 01	Map your top 5 lived values. Identify your biggest conflict.
DEBRIEF	“Where does this conflict show up in your life?”
CONCEPT 03	Non-negotiables — the values that must shape your next chapter.
QUICK HIT 02	“Which value do you want to honour more intentionally?”
ACTIVITY 02	Choose 3 non-negotiables. Write what each looks like in practice.

CLOSE

One takeaway. One value you'll honour this week. Next: Identity & Self-Concept.

Participants Leave Able To

- Identify their real values
- Recognise value conflicts
- Define their non-negotiables

Methods

Value mapping · conflict identification · behavioural analysis · reflective practice

<div style="page-break-after: always;"></div>

MODULE 03 — IDENTITY & SELF-CONCEPT

Who you think you are shapes what you think is possible.

Framing

Identity is the quiet architecture of your life.

It shapes your choices, your limits, your ambitions, your relationships.

This module helps participants see the identity they're outgrowing and the one they're growing into.

Core Claim

Identity is not fixed — it's a design material.

Session Flow

Beat	Content
OPEN	"I am someone who..." — the sentence that reveals your operating system.
CONTEXT	Identity as narrative, not fact. The difference between old identity and emerging identity.
CONCEPT 01	The outdated identity — roles you no longer need (the fixer, the achiever, the strong one).
QUICK HIT 01	"Which identity still clings to you even though it's no longer true?"
CONCEPT 02	The future identity — who you're becoming.
ACTIVITY 01	Write: "I am becoming someone who..."
DEBRIEF	"What friction exists between old you and emerging you?"
CONCEPT 03	Identity friction — how old patterns resist new behaviour.
QUICK HIT 02	"Where does your old identity fight your new one?"
ACTIVITY 02	Map identity friction. Identify one behaviour that bridges the gap.
CLOSE	One takeaway. One identity shift you're ready to honour. Next: Energy & Capacity.

Participants Leave Able To

- Articulate their current identity
- Name the identity they're outgrowing
- Define the identity they're becoming

Methods

Identity mapping · narrative reframing · behavioural alignment · reflective dialogue

<div style="page-break-after: always;"></div>

MODULE 04 — ENERGY & CAPACITY

Your life is designed by what you have energy for.

Framing

Most people plan their lives as if they have infinite capacity.

But energy — physical, emotional, mental, creative — is the real currency of a sustainable life.

This module helps participants understand their energy patterns and design within their limits.

Core Claim

You don't need more discipline. You need a life that fits your energy.

Session Flow

Beat	Content
OPEN	"What drains you fastest?" — the question that reveals your system.
CONTEXT	The four energy domains: physical, emotional, mental, creative.

- CONCEPT 01** Energy leaks — overfunctioning, people-pleasing, poor boundaries, self-abandonment.
- QUICK HIT 01** “Where does your energy leak most consistently?”
- CONCEPT 02** Energy sources — what restores you reliably.
- ACTIVITY 01** Map your energy: leaks, sources, patterns.
- DEBRIEF** “What surprised you about your energy map?”
- CONCEPT 03** Capacity constraints — designing within reality (time, money, health, care, bandwidth).
- QUICK HIT 02** “What are you pretending you have capacity for that you don’t?”
- ACTIVITY 02** Identify one constraint. Design a shift that honours it.
- CLOSE** One takeaway. One boundary you’ll honour this week. Next: Life Systems.

Participants Leave Able To

- Map their energy patterns
- Identify leaks and sources
- Design within their real capacity

Methods

Energy mapping · constraint design · boundary identification · reflective practice

<div style="page-break-after: always;"></div>

MODULE 05 — LIFE SYSTEMS

Your life is a system. Systems produce predictable outcomes.

Framing

Your life is not random — it's systemic.

Your work system, relationship system, self system, and environment system all interact to produce your current reality.

This module teaches participants how to map and redesign those systems.

Core Claim

If you want different outcomes, you don't need more willpower — you need a different system.

Session Flow

Beat	Content
OPEN	"What system in your life is producing the most friction?"
CONTEXT	Systems thinking for humans — inputs, outputs, constraints, feedback loops.
CONCEPT 01	The four core life systems: Work, Relationships, Self, Environment.
QUICK HIT 01	"Which system feels most out of alignment?"

CONCEPT 02 System friction — where things consistently break.

ACTIVITY 01 Map your four systems using the Life System Canvas.

DEBRIEF “What pattern showed up across multiple systems?”

CONCEPT 03 Leverage points — small shifts that create big change.

QUICK HIT 02 “What’s one small shift that would change everything?”

ACTIVITY 02 Redesign one system. Identify one leverage point.

CLOSE One takeaway. One system you’ll shift this month. Next: Future Self.

Participants Leave Able To

- Map their life systems
- Identify friction and leverage points
- Redesign one system with intention

Methods

Systems mapping · leverage identification · redesign canvas · reflective analysis

<div style="page-break-after: always;"></div>

MODULE 06 — FUTURE SELF

You can’t design a life you haven’t imagined.

Framing

Most people plan their future based on their past.

But your future self has different needs, values, and desires.

This module helps participants imagine their future self and design the bridge between now and next.

Core Claim

Your future self is a design partner — not a fantasy.

Session Flow

Beat	Content
OPEN	“What does your life feel like one year from now?”
CONTEXT	Future self as identity, behaviour, environment, relationships, work.
CONCEPT 01	The Future Self Map — a structured way to imagine your next chapter.
QUICK HIT 01	“What’s one thing your future self does that you don’t?”
CONCEPT 02	Gap analysis — identity gap, behaviour gap, environment gap, support gap.
ACTIVITY 01	Create your Future Self Map. Identify the gaps.
DEBRIEF	“Which gap feels most important to close?”

CONCEPT 03 Designing within constraints — honouring reality while expanding possibility.

QUICK HIT 02 “What constraint do you need to design *with*, not against?”

ACTIVITY 02 Choose one behaviour your future self does. Start designing it.

CLOSE One takeaway. One behaviour you’ll begin this week. Next: Decision Design.

Participants Leave Able To

- Articulate their future self
- Identify the gaps between present and future
- Begin designing the bridge

Methods

Future self mapping · gap analysis · constraint design · behavioural prototyping

Perfect — here is **PART 2** of the **Design to Me Full Curriculum**, written in the *exact same structure, tone, and level of detail* as Part 1 and your Design-Led master document.

This completes Modules **07–12**, with page-break markers, narrative framing, core claims, full session flows, participant outcomes, and methods — all in your **Signature Jacinta** voice.

DESIGN TO ME — FULL CURRICULUM (2026 EDITION)

PART 2 — MODULES 07–12

Warm clarity with a backbone. Grounded. Human. Emotionally intelligent.
Life-design for real humans in real systems.

<div style="page-break-after: always;"></div>

MODULE 07 — DECISION DESIGN

Your life is shaped by the decisions you make repeatedly.

Framing

Most people think they have a motivation problem.
They actually have a **decision design** problem.

Your life is the sum of the decisions you make over and over:
what you say yes to, what you say no to, what you tolerate, what you avoid, what you prioritise,
what you postpone.

This module teaches participants how to make decisions with clarity, integrity, and alignment.

Core Claim

Good decisions aren't about certainty — they're about clarity.

Session Flow

Beat	Content
OPEN	“What’s a decision you’ve been avoiding?”
CONTEXT	Decision patterns — autopilot choices, inherited choices, fear-based choices.

CONCEPT 01 Decision hygiene — separating facts, interpretations, assumptions, fears, and values.

QUICK HIT 01 “Which part of decision hygiene do you skip most often?”

CONCEPT 02 Decision matrices — cost, benefit, energy impact, value alignment, future-self alignment.

ACTIVITY 01 Map a current decision using the Decision Hygiene Canvas.

DEBRIEF “What changed when you separated fact from interpretation?”

CONCEPT 03 The “next right move” — designing decisions as micro-steps, not life overhauls.

QUICK HIT 02 “What’s the smallest next right move available to you?”

ACTIVITY 02 Choose one decision. Design the next right move.

CLOSE One takeaway. One decision you’ll make with clarity this week. Next: Prototyping Your Life.

Participants Leave Able To

- Practise decision hygiene
- Use decision matrices
- Make aligned, principled decisions
- Identify the next right move

Methods

<div style="page-break-after: always;"></div>

MODULE 08 — PROTOTYPING YOUR LIFE

You don't need a plan. You need a prototype.

Framing

Most people try to redesign their life with a five-year plan.
But life doesn't respond to plans — it responds to **experiments**.

This module teaches participants how to prototype their life the same way designers prototype products: small, fast, low-risk experiments that generate clarity.

Core Claim

Prototypes create information. Information creates clarity. Clarity creates momentum.

Session Flow

Beat	Content
OPEN	“What’s one area of your life you wish felt different?”
CONTEXT	Why plans fail — perfectionism, overwhelm, unrealistic timelines. Why prototypes work — small, safe, learnable.
CONCEPT 01	The Life Prototype — hypothesis, behaviour, duration, success criteria, failure criteria.

QUICK HIT 01 “What’s a 7-day experiment you could run?”

CONCEPT 02 The 7-Day Prototype — structure, reflection, iteration.

ACTIVITY 01 Design a 7-day prototype using the Prototype Canvas.

DEBRIEF “What did your prototype reveal about your system?”

CONCEPT 03 Scaling prototypes — when to keep, kill, or evolve an experiment.

QUICK HIT 02 “What prototype are you ready to scale?”

ACTIVITY 02 Choose one prototype to scale. Define the next iteration.

CLOSE One takeaway. One prototype you’ll run this week. Next: Boundaries & Emotional Labour.

Participants Leave Able To

- Design and run life prototypes
- Learn from experiments
- Iterate behaviours sustainably

Methods

Prototyping · hypothesis design · behavioural iteration · reflective practice

<div style="page-break-after: always;"></div>

MODULE 09 — BOUNDARIES & EMOTIONAL LABOUR

Your life expands or contracts based on the boundaries you hold.

Framing

Most burnout isn't caused by workload — it's caused by **boundary failure** and **invisible emotional labour**.

This module helps participants identify where they overgive, overfunction, or self-abandon, and teaches them how to set boundaries that honour their energy and values.

Core Claim

Boundaries aren't walls — they're design constraints for a sustainable life.

Session Flow

Beat	Content
OPEN	"Where do you consistently overextend yourself?"
CONTEXT	Emotional labour — the invisible work of managing feelings, needs, expectations, harmony.
CONCEPT 01	Boundary types — time, energy, emotional, communication, physical, digital.
QUICK HIT 01	"Which boundary type do you need most right now?"

CONCEPT 02 Boundary scripts — clear, kind, firm communication.

ACTIVITY 01 Write a boundary script using the Boundary Canvas.

DEBRIEF “What feels hard about holding this boundary?”

CONCEPT 03 Consequences — what you’ll do if the boundary is crossed.

QUICK HIT 02 “What consequence feels aligned and realistic?”

ACTIVITY 02 Choose one boundary to implement this week.

CLOSE One takeaway. One boundary you’ll honour. Next: Relationships & Belonging.

Participants Leave Able To

- Identify emotional labour
- Set and communicate boundaries
- Honour their energy with integrity

Methods

Boundary mapping · emotional labour identification · script writing · consequence design

<div style="page-break-after: always;"></div>

MODULE 10 — RELATIONSHIPS & BELONGING

You become the people you're surrounded by.

Framing

Relationships are the ecosystem your life grows inside.

Some relationships nourish you. Some drain you. Some shape you. Some shrink you.

This module helps participants map their relationship ecosystem and redesign the dynamics that matter most.

Core Claim

Belonging is a design choice — not an accident.

Session Flow

Beat	Content
OPEN	“Who in your life makes you feel most like yourself?”
CONTEXT	Relationship ecosystems — nourishing, neutral, draining.
CONCEPT 01	Relationship needs — depth, honesty, play, support, challenge, space, reciprocity.
QUICK HIT 01	“What do you need more of in your relationships?”
CONCEPT 02	Relationship redesign — shifting dynamics with clarity and compassion.

ACTIVITY 01 Map your relationship ecosystem. Identify one relationship to redesign.

DEBRIEF “What’s the smallest shift that would change this dynamic?”

CONCEPT 03 Belonging — where you feel most like yourself, and why.

QUICK HIT 02 “Where do you feel the strongest sense of belonging?”

ACTIVITY 02 Write a belonging intention for the next chapter.

CLOSE One takeaway. One relational shift you’ll make. Next: Ambition & Desire.

Participants Leave Able To

- Map their relationship ecosystem
- Identify relational needs
- Redesign key dynamics
- Clarify where they belong

Methods

Relationship mapping · needs identification · relational redesign · belonging analysis

<div style="page-break-after: always;"></div>

MODULE 11 — AMBITION & DESIRE

Desire is data. Ambition is direction.

Framing

Most people are more comfortable with obligation than desire.

But desire is information — it reveals what wants to grow in you.

This module helps participants reconnect with desire and design ambition without burnout.

Core Claim

Desire isn't indulgent — it's instructive.

Session Flow

Beat	Content
OPEN	“What do you want — without editing, shrinking, or justifying?”
CONTEXT	Desire as data — creative, professional, relational, experiential, emotional.
CONCEPT 01	The Desire Map — sorting desires into categories.
QUICK HIT 01	“What desire surprised you?”
CONCEPT 02	The desire you're afraid to admit — the one with the most energy.
ACTIVITY 01	Write your Desire Inventory. Identify the scary one.
DEBRIEF	“Why does this desire scare you?”

CONCEPT 03 Ambition without burnout — designing ambition with support, pacing, and constraints.

QUICK HIT 02 “What support would make your ambition sustainable?”

ACTIVITY 02 Choose one ambition. Map the cost, support, and first micro-step.

CLOSE One takeaway. One desire you’ll honour. Next: Designing Your Next Chapter.

Participants Leave Able To

- Identify their desires
- Name the desire they’re afraid to admit
- Design ambition sustainably

Methods

Desire mapping · ambition design · support mapping · reflective practice

<div style="page-break-after: always;"></div>

MODULE 12 — DESIGNING YOUR NEXT CHAPTER

Your next chapter is a design project.

Framing

Your next chapter doesn't emerge by accident — it emerges by design.

This module helps participants integrate everything they've learned into a coherent, intentional next chapter.

Core Claim

Your next chapter is a choice — not a continuation.

Session Flow

Beat	Content
OPEN	"What's the title of your next chapter?"
CONTEXT	Chapter themes — expansion, rest, depth, courage, creativity, stability, play, reinvention.
CONCEPT 01	The Chapter Map — what you're leaving behind, carrying forward, inviting in, building toward.
QUICK HIT 01	"What are you done carrying?"
CONCEPT 02	Designing within constraints — honouring reality while expanding possibility.
ACTIVITY 01	Create your Chapter Map. Identify your constraints.
DEBRIEF	"What constraint do you need to design with, not against?"
CONCEPT 03	The 90-Day Plan — three focus areas, clear goals, actionable steps.

QUICK HIT 02 “What’s one commitment you’re making to your next chapter?”

ACTIVITY 02 Build your 90-Day Plan.

CLOSE One takeaway. One commitment. One next right move.

Participants Leave Able To

- Articulate their next chapter
- Design within constraints
- Build a 90-day plan
- Integrate the full D2M toolkit

Methods

Chapter mapping · constraint design · 90-day planning · integration practice

DESIGN TO ME — MODULE 01

Slide-Ready Deck (Signature Jacinta Style)

ORIGIN STORY

Where you come from shapes how you design your life.

Slide 1 — Title

ORIGIN STORY

Your past isn't your prison. It's your pattern library.

Slide 2 — What This Module Is About

- Understanding the “design brief” you inherited
 - Naming early patterns
 - Identifying hidden rules
 - Reclaiming authorship of your story
 - Beginning the shift from unconscious → intentional
-

Slide 3 — The Opening Frame

Your life so far has been shaped by:

- What you were taught
- What you survived
- What you adapted to
- What you believed you had to be

This module is about seeing the water you've been swimming in.

Slide 4 — The Unconscious Life Brief

Most people live by a brief they never wrote.
Common inherited briefs:

- “Be useful.”
- “Don’t be too much.”
- “Keep the peace.”
- “Achieve to be loved.”
- “Don’t need anything.”

What was yours?

Slide 5 — Quick Hit

Prompt:

“What did the world teach you to optimise for?”

(Expect: achievement, harmony, safety, approval.)

Slide 6 — Early Patterns

Patterns often form around:

- Family roles
- Survival strategies
- Cultural expectations
- School dynamics
- Early feedback loops

Patterns aren’t flaws — they’re adaptations.

Slide 7 — Activity: Pattern Spotting

List 3 early patterns you still carry:

- Behavioural
- Emotional
- Relational

Which one still runs the show?

Slide 8 — The Hidden Rule

Every life has a hidden rule.

It sounds like:

- “Don’t take up space.”
- “Don’t disappoint anyone.”
- “Be the strong one.”
- “Don’t ask for help.”

Your hidden rule is the thing you break first when you start designing your life.

Slide 9 — Activity: Name Your Hidden Rule

Write the rule you’ve been living by that you never consciously chose.

Then write the rule you want instead.

Slide 10 — Rewriting Your Origin Story

Your origin story isn’t:

- A trauma dump
- A résumé
- A justification

It’s:

- What shaped you
 - What you learned
 - What you’re ready to outgrow
-

Slide 11 — Activity: 5-Sentence Origin Story

Write your origin story in 5 sentences:

1. Where you came from
 2. What shaped you
 3. What you learned
 4. What you carried
 5. What you're choosing now
-

Slide 12 — The Shift Begins

You don't need to reject your past.

You need to **update the operating system**.

This module is the first update.

Slide 13 — Close

One takeaway

One pattern you're ready to retire

One truth you're ready to claim

Next: VALUES IN PRACTICE — values aren't words; they're behaviours under pressure.

Slide 14 — Further Reading & Resources

Books

- *The Body Keeps the Score* — Bessel van der Kolk
- *Adult Children of Emotionally Immature Parents* — Lindsay Gibson
- *The Mountain Is You* — Brianna Wiest

Articles

- "The Stories We Tell Ourselves" — Psychology Today

Talks

- Brené Brown — "The Power of Vulnerability"

Perfect, Jacinta — here are **Modules 02–06** of the **Design to Me slide decks**, written in the exact same structure, tone, and slide-ready format as Module 01.

No fluff. No prose. Clean bullets. Human. Grounded. Emotionally intelligent.
Ready to drop straight into Keynote/PowerPoint.

MODULE 02 — VALUES IN PRACTICE

Values aren't words. They're behaviours under pressure.

Slide 1 — Title

VALUES IN PRACTICE

Your real values show up in your behaviour — not your branding.

Slide 2 — What This Module Is About

- Lived values vs aspirational values
 - Values under pressure
 - Value conflicts
 - Non-negotiables
 - Designing a life that matches what matters
-

Slide 3 — Opening Frame

Most people list values they *wish* they lived by.
Your real values are revealed by:

- What you prioritise
- What you protect
- What you sacrifice
- What you do under pressure

Slide 4 — Lived vs Aspirational Values

Aspirational values = who you want to be.

Lived values = who you are in practice.

Behaviour is the evidence.

Slide 5 — Quick Hit

Prompt:

“Which value do you betray first when you’re overwhelmed?”

Slide 6 — Value Conflicts

Common conflicts:

- Freedom ↔ Stability
- Ambition ↔ Rest
- Care for others ↔ Care for self
- Honesty ↔ Harmony

Conflicts aren’t failures — they’re design constraints.

Slide 7 — Activity: Value Mapping

Map your top 5 lived values.

Circle the one that creates the most conflict.

Slide 8 — Non-Negotiables

Non-negotiables are values that shape your next chapter.

They sound like:

- “I honour my energy.”
 - “I tell the truth kindly.”
 - “I don’t abandon myself.”
-

Slide 9 — Activity: Choose Your Non-Negotiables

Pick 3 values.

Write what each looks like in practice.

Slide 10 — Close

One takeaway

One value you’ll honour this week

Next: IDENTITY & SELF-CONCEPT.

Slide 11 — Further Reading & Resources

Books

- *The Gifts of Imperfection* — Brené Brown
- *The Mountain Is You* — Brianna Wiest

Articles

- “Your Values Are Your Boundaries” — Psychology Today

Talks

- Brené Brown — “Listening to Shame”
-

<div style="page-break-after: always;"></div>

★ MODULE 03 — IDENTITY & SELF-CONCEPT

Who you think you are shapes what you think is possible.

Slide 1 — Title

IDENTITY & SELF-CONCEPT

Identity is not fixed — it's a design material.

Slide 2 — What This Module Is About

- Current identity
 - Outgrown identity
 - Emerging identity
 - Identity friction
 - Behaviour as the bridge
-

Slide 3 — Opening Frame

Identity quietly shapes:

- What you attempt
- What you avoid
- What you tolerate
- What you believe is possible

Most identities were formed unconsciously.

Slide 4 — The Identity Sentence

Complete the sentence:

“I am someone who...”

This reveals your operating system.

Slide 5 — Quick Hit

Prompt:

“What identity still clings to you even though it’s no longer true?”

Slide 6 — Outgrown Identity

Common outdated identities:

- The fixer
- The achiever
- The strong one
- The quiet one
- The responsible one

These were roles — not destinies.

Slide 7 — Activity: Outgrown Identity

Write the identity you’re ready to retire.

Write why it once served you.

Slide 8 — Emerging Identity

Your emerging identity sounds like:

- “I am becoming someone who rests.”
 - “I am becoming someone who asks for help.”
 - “I am becoming someone who chooses myself.”
-

Slide 9 — Activity: Emerging Identity

Write:

“I am becoming someone who...”

Slide 10 — Identity Friction

Where old you fights new you:

- Habits
- Relationships
- Expectations
- Self-talk

Friction = growth.

Slide 11 — Activity: Map the Friction

Identify one friction point.

Write one behaviour that bridges the gap.

Slide 12 — Close

One takeaway

One identity shift you'll honour

Next: ENERGY & CAPACITY.

Slide 13 — Further Reading & Resources

Books

- *Atomic Habits* — James Clear
- *Untamed* — Glennon Doyle

Talks

- David Brooks — “The Lies Our Culture Tells Us About What Matters”
-

<div style="page-break-after: always;"></div>

MODULE 04 — ENERGY & CAPACITY

Your life is designed by what you have energy for.

Slide 1 — Title

ENERGY & CAPACITY

You don't need more discipline. You need a life that fits your energy.

Slide 2 — What This Module Is About

- Energy mapping
 - Leaks and sources
 - Capacity constraints
 - Designing within reality
 - Boundaries as energy protection
-

Slide 3 — Opening Frame

Energy is the real currency of your life.

Your life is shaped by:

- What drains you
- What restores you
- What you pretend you have capacity for
- What you actually have capacity for

Slide 4 — The Four Energy Domains

- Physical
- Emotional
- Mental
- Creative

Each domain has different needs.

Slide 5 — Quick Hit

Prompt:

“Where does your energy leak fastest?”

Slide 6 — Energy Leaks

Common leaks:

- Overfunctioning
- People-pleasing
- Poor boundaries
- Self-abandonment
- Constant availability

Leaks are design problems, not personal failures.

Slide 7 — Activity: Energy Map

Map your leaks + sources across the four domains.

Slide 8 — Capacity Constraints

Constraints aren't obstacles — they're design parameters.

Examples:

- Time
 - Money
 - Health
 - Kids
 - Care responsibilities
 - Emotional bandwidth
-

Slide 9 — Quick Hit

Prompt:

“What are you pretending you have capacity for that you don't?”

Slide 10 — Activity: Constraint Design

Choose one constraint.

Design one shift that honours it.

Slide 11 — Close

One takeaway

One boundary you'll honour this week

Next: LIFE SYSTEMS.

Slide 12 — Further Reading & Resources

Books

- *Burnout* — Emily & Amelia Nagoski
- *Rest Is Resistance* — Tricia Hersey

Talks

- “The Power of Rest” — Alex Soojung-Kim Pang
-

<div style="page-break-after: always;"></div>

MODULE 05 — LIFE SYSTEMS

Your life is a system. Systems produce predictable outcomes.

Slide 1 — Title

LIFE SYSTEMS

If you want different outcomes, you need a different system.

Slide 2 — What This Module Is About

- Systems thinking for humans
 - The four core life systems
 - System friction
 - Leverage points
 - Redesigning your system
-

Slide 3 — Opening Frame

Your life is not random — it's systemic.

Every system has:

- Inputs
- Outputs
- Constraints
- Feedback loops

Your current system is perfectly designed for your current results.

Slide 4 — The Four Life Systems

- Work system
- Relationship system
- Self system
- Environment system

Each system shapes the others.

Slide 5 — Quick Hit

Prompt:

“Which system feels most out of alignment?”

Slide 6 — System Friction

Friction shows up as:

- Repeating problems
- Emotional drain
- Avoidance
- Overwhelm
- Resentment

Friction = information.

Slide 7 — Activity: System Mapping

Map your four systems using the Life System Canvas.

Slide 8 — Leverage Points

Small shifts that create big change.

Examples:

- One boundary
 - One ritual
 - One conversation
 - One habit
 - One environmental tweak
-

Slide 9 — Quick Hit

Prompt:

“What’s one small shift that would change everything?”

Slide 10 — Activity: System Redesign

Choose one system.

Identify one leverage point.

Design the shift.

Slide 11 — Close

One takeaway

One system you’ll shift this month

Next: FUTURE SELF.

Slide 12 — Further Reading & Resources

Books

- *Systems Thinking for Social Change* — David Peter Stroh

- *Range* — David Epstein

Talks

- Donella Meadows — “Leverage Points”
-

<div style="page-break-after: always;"></div>

MODULE 06 — FUTURE SELF

You can't design a life you haven't imagined.

Slide 1 — Title

FUTURE SELF

Your future self is a design partner — not a fantasy.

Slide 2 — What This Module Is About

- Future self mapping
 - Identity, behaviour, environment, relationships, work
 - Gap analysis
 - Designing the bridge
 - Constraints as design parameters
-

Slide 3 — Opening Frame

Most people plan their future based on their past.
Your future self has different needs, values, and desires.

This module helps you meet them.

Slide 4 — The Future Self Map

Map your future self across:

- Identity
 - Behaviours
 - Environment
 - Relationships
 - Work
-

Slide 5 — Quick Hit

Prompt:

“What’s one thing your future self does that you don’t?”

Slide 6 — Gap Analysis

Gaps show up as:

- Identity gap
- Behaviour gap
- Environment gap
- Support gap

Gaps aren’t problems — they’re design briefs.

Slide 7 — Activity: Future Self Map

Create your 12-month future self snapshot.

Identify the gaps.

Slide 8 — Designing Within Constraints

Constraints aren’t limits — they’re clarity.

Design with them, not against them.

Slide 9 — Quick Hit

Prompt:

“What constraint do you need to honour, not fight?”

Slide 10 — Activity: Behaviour Bridge

Choose one behaviour your future self does.

Design the first micro-step.

Slide 11 — Close

One takeaway

One behaviour you’ll begin this week

Next: DECISION DESIGN.

Slide 12 — Further Reading & Resources

Books

- *Designing Your Life* — Burnett & Evans
- *Becoming* — Michelle Obama

Talks

- “The Psychology of Your Future Self” — Dan Gilbert
-

Absolutely, Jacinta — here are **Modules 07–12** of the **Design to Me slide decks**, in the exact same structure, tone, and slide-ready format as Modules 01–06.

Clean. Human. Grounded. Emotionally intelligent.
Ready to drop straight into Keynote/PowerPoint.

MODULE 07 — DECISION DESIGN

Your life is shaped by the decisions you make repeatedly.

Slide 1 — Title

DECISION DESIGN

Good decisions aren't about certainty — they're about clarity.

Slide 2 — What This Module Is About

- Decision patterns
 - Decision hygiene
 - Separating fact from interpretation
 - Decision matrices
 - The “next right move”
-

Slide 3 — Opening Frame

Your life is the sum of the decisions you make over and over:

- What you say yes to
- What you say no to
- What you tolerate
- What you avoid
- What you prioritise

Most people don't have a motivation problem — they have a **decision design** problem.

Slide 4 — Decision Patterns

Common patterns:

- Autopilot decisions
- Inherited decisions
- Fear-based decisions
- Avoidance decisions

Patterns can be redesigned.

Slide 5 — Quick Hit

Prompt:

“What’s a decision you’ve been avoiding?”

Slide 6 — Decision Hygiene

Separate:

- **Facts**
- **Interpretations**
- **Assumptions**
- **Fears**
- **Values**

Clarity lives in the separation.

Slide 7 — Activity: Decision Hygiene Canvas

Choose one decision.

Sort it into the five categories.

Slide 8 — Decision Matrix

Evaluate options by:

- Cost
 - Benefit
 - Energy impact
 - Value alignment
 - Future-self alignment
-

Slide 9 — Quick Hit

Prompt:

“What’s the smallest next right move available to you?”

Slide 10 — Activity: Next Right Move

Choose one decision.

Design the next micro-step.

Slide 11 — Close

One takeaway

One decision you’ll make with clarity this week

Next: PROTOTYPING YOUR LIFE.

Slide 12 — Further Reading & Resources

Books

- *Thinking in Bets* — Annie Duke
- *Decisive* — Chip & Dan Heath

Talks

- Ruth Chang — “How to Make Hard Choices”

<div style="page-break-after: always;"></div>

★ MODULE 08 — PROTOTYPING YOUR LIFE

You don't need a plan. You need a prototype.

Slide 1 — Title

PROTOTYPING YOUR LIFE

Prototypes create information. Information creates clarity.

Slide 2 — What This Module Is About

- Why plans fail
 - Why prototypes work
 - The Life Prototype Canvas
 - 7-day experiments
 - Scaling what works
-

Slide 3 — Opening Frame

Most people try to redesign their life with a five-year plan.
But life responds to **experiments**, not plans.

Small. Fast. Low-risk. Learnable.

Slide 4 — Why Plans Fail

- Perfectionism

- Overwhelm
- Unrealistic timelines
- No feedback loops

Plans assume certainty.
Prototypes assume learning.

Slide 5 — Quick Hit

Prompt:

“What’s one area of your life you wish felt different?”

Slide 6 — The Life Prototype

A prototype includes:

- Hypothesis
 - Behaviour
 - Duration
 - Success criteria
 - Failure criteria
-

Slide 7 — Activity: Prototype Canvas

Design a 7-day prototype.
Keep it small enough to succeed.

Slide 8 — The 7-Day Experiment

Run → Observe → Learn → Adjust.

The goal isn’t success — it’s information.

Slide 9 — Quick Hit

Prompt:

“What prototype are you ready to scale?”

Slide 10 — Activity: Prototype Iteration

Choose one prototype.

Decide: keep, kill, or evolve.

Slide 11 — Close

One takeaway

One prototype you'll run this week

Next: BOUNDARIES & EMOTIONAL LABOUR.

Slide 12 — Further Reading & Resources

Books

- *Designing Your Life* — Burnett & Evans
- *Tiny Habits* — BJ Fogg

Talks

- “Try Something New for 30 Days” — Matt Cutts
-

<div style="page-break-after: always;"></div>

MODULE 09 — BOUNDARIES & EMOTIONAL LABOUR

Your life expands or contracts based on the boundaries you hold.

Slide 1 — Title

BOUNDARIES & EMOTIONAL LABOUR

Boundaries aren't walls — they're design constraints.

Slide 2 — What This Module Is About

- Emotional labour
 - Boundary types
 - Boundary scripts
 - Consequences
 - Designing sustainable relationships
-

Slide 3 — Opening Frame

Most burnout isn't caused by workload.

It's caused by:

- Boundary failure
- Invisible emotional labour
- Chronic overfunctioning

This module brings the invisible into view.

Slide 4 — Emotional Labour

Examples:

- Managing others' feelings
- Anticipating needs
- Keeping the peace
- Being "the strong one"
- Being the organiser

If it's invisible, it's unsustainable.

Slide 5 — Quick Hit

Prompt:

“Where do you consistently overextend yourself?”

Slide 6 — Boundary Types

- Time
- Energy
- Emotional
- Communication
- Physical
- Digital

Different boundaries solve different problems.

Slide 7 — Activity: Boundary Script

Use the Boundary Canvas:

- What I need
 - The boundary
 - How I'll communicate it
 - What I'll do if it's crossed
-

Slide 8 — Consequences

A boundary without a consequence is a suggestion.

Consequences must be:

- Clear
- Kind

- Consistent
 - Realistic
-

Slide 9 — Quick Hit

Prompt:

“What consequence feels aligned and doable?”

Slide 10 — Activity: Choose One Boundary

Pick one boundary you'll honour this week.

Write the script.

Write the consequence.

Slide 11 — Close

One takeaway

One boundary you'll honour

Next: RELATIONSHIPS & BELONGING.

Slide 12 — Further Reading & Resources

Books

- *Set Boundaries, Find Peace* — Nedra Tawwab
- *The Dance of Anger* — Harriet Lerner

Talks

- Terri Cole — “The Art of Boundaries”
-

<div style="page-break-after: always;"></div>

★ MODULE 10 — RELATIONSHIPS & BELONGING

You become the people you're surrounded by.

Slide 1 — Title

RELATIONSHIPS & BELONGING

Belonging is a design choice — not an accident.

Slide 2 — What This Module Is About

- Relationship ecosystems
 - Nourishing vs draining dynamics
 - Relational needs
 - Redesigning relationships
 - Belonging as a compass
-

Slide 3 — Opening Frame

Relationships are the ecosystem your life grows inside.

Some relationships nourish you.

Some drain you.

Some shape you.

Some shrink you.

Slide 4 — Relationship Ecosystem

Three categories:

- Nourishing

- Neutral
- Draining

Patterns reveal needs.

Slide 5 — Quick Hit

Prompt:

“Who makes you feel most like yourself?”

Slide 6 — Relational Needs

Common needs:

- Depth
- Honesty
- Play
- Support
- Challenge
- Space
- Reciprocity

Needs are not negotiable.

Slide 7 — Activity: Ecosystem Map

Map your relationships.

Identify one dynamic to redesign.

Slide 8 — Relationship Redesign

Shift the dynamic by changing:

- Boundaries
- Communication

- Expectations
- Proximity
- Investment

Small shifts → big changes.

Slide 9 — Quick Hit

Prompt:

“What’s the smallest shift that would change this dynamic?”

Slide 10 — Belonging

Belonging is where you feel:

- Seen
- Safe
- Supported
- Expanded

Belonging is a direction, not a place.

Slide 11 — Close

One takeaway

One relational shift you’ll make

Next: AMBITION & DESIRE.

Slide 12 — Further Reading & Resources

Books

- *All About Love* — bell hooks
- *Attached* — Levine & Heller

Talks

- Esther Perel — “The Quality of Our Relationships Determines the Quality of Our Lives”
-

<div style="page-break-after: always;"></div>

MODULE 11 — AMBITION & DESIRE

Desire is data. Ambition is direction.

Slide 1 — Title

AMBITION & DESIRE

Desire isn't indulgent — it's instructive.

Slide 2 — What This Module Is About

- Desire as information
 - Desire mapping
 - The desire you're afraid to admit
 - Sustainable ambition
 - Support systems
-

Slide 3 — Opening Frame

Most people are more comfortable with obligation than desire.

But desire reveals:

- What wants to grow
- What wants to change
- What wants to be expressed

Desire is data.

Slide 4 — Desire Inventory

Write 10 desires without:

- Editing
- Shrinking
- Justifying

Let them be true.

Slide 5 — Quick Hit

Prompt:

“What desire surprised you?”

Slide 6 — The Desire You’re Afraid to Admit

This desire usually has the most energy.
It’s the one that changes things.

Slide 7 — Activity: Desire Map

Sort desires into:

- Creative
 - Professional
 - Relational
 - Experiential
 - Emotional
-

Slide 8 — Ambition Without Burnout

Sustainable ambition requires:

- Support
- Pacing
- Boundaries
- Rest
- Clarity

Ambition is a system, not a sprint.

Slide 9 — Quick Hit

Prompt:

“What support would make your ambition sustainable?”

Slide 10 — Activity: Ambition Map

Choose one ambition.

Map:

- Why it matters
 - What it requires
 - What it costs
 - What support you need
 - The first micro-step
-

Slide 11 — Close

One takeaway

One desire you'll honour

Next: DESIGNING YOUR NEXT CHAPTER.

Slide 12 — Further Reading & Resources

Books

- *The Desire Map* — Danielle LaPorte
- *Big Magic* — Elizabeth Gilbert

Talks

- “The Power of Vulnerability” — Brené Brown

<div style="page-break-after: always;"></div>

MODULE 12 — DESIGNING YOUR NEXT CHAPTER

Your next chapter is a design project.

Slide 1 — Title

DESIGNING YOUR NEXT CHAPTER

Your next chapter is a choice — not a continuation.

Slide 2 — What This Module Is About

- Chapter themes
 - Chapter map
 - Constraints
 - 90-day plan
 - Integration
-

Slide 3 — Opening Frame

Your next chapter doesn't emerge by accident.
It emerges by design.

This is where everything comes together.

Slide 4 — Chapter Title

Your chapter title sets the tone.

Examples:

- “The Year of Depth”
 - “The Season of Expansion”
 - “The Return to Self”
 - “The Quiet Rebuild”
-

Slide 5 — Quick Hit

Prompt:

“What are you done carrying?”

Slide 6 — The Chapter Map

Map four things:

- What you’re leaving behind
 - What you’re carrying forward
 - What you’re inviting in
 - What you’re building toward
-

Slide 7 — Activity: Chapter Map

Create your chapter map.

Name the themes.

Slide 8 — Designing Within Constraints

Constraints = clarity.

Design with them, not against them.

Slide 9 — Quick Hit

Prompt:

“What constraint do you need to honour?”

Slide 10 — The 90-Day Plan

Three focus areas.

Clear goals.

Actionable steps.

Sustainable pacing.

Slide 11 — Activity: 90-Day Plan

Build your plan:

- Focus area
 - Goal
 - Actions
-

Slide 12 — Close

One takeaway

One commitment

One next right move

Next: INTEGRATION (Life OS).

Slide 13 — Further Reading & Resources

Books

- *The Crossroads of Should and Must* — Elle Luna
- *Essentialism* — Greg McKeown

Talks

- “Start With Why” — Simon Sinek

Absolutely, Jacinta — here is **MODULE 13** of the **Design to Me slide deck**, in the same clean, grounded, emotionally intelligent, slide-ready format as Modules 01–12.

This is the integration chapter — the moment the whole program coheres into a Life Operating System.

★ **MODULE 13 — INTEGRATION (LIFE OS)**

Your life, designed as a system you can actually live inside.

Slide 1 — Title

INTEGRATION (LIFE OS)

Integration is the moment your life starts making sense.

Slide 2 — What This Module Is About

- Your Life Operating System
- Principles
- Rituals
- Rhythms
- Constraints

- Supports
 - Non-negotiables
 - Your personal manifesto
-

Slide 3 — Opening Frame

You've done the deep work:

- Patterns
- Values
- Identity
- Energy
- Systems
- Future self
- Decisions
- Prototypes
- Boundaries
- Relationships
- Desire
- Ambition
- Your next chapter

Now it's time to **integrate**.

Slide 4 — What Integration Means

Integration is:

- Turning insight into rhythm
- Turning desire into direction
- Turning clarity into practice
- Turning intention into structure

Integration is the bridge between “I know” and “I live this way.”

Slide 5 — Quick Hit

Prompt:

“What’s one thing you know now that you can’t unknow?”

Slide 6 — Your Life Operating System

Your Life OS is made of:

- Principles
- Rituals
- Rhythms
- Constraints
- Supports
- Non-negotiables

This is the architecture that holds your next chapter.

Slide 7 — Activity: Life OS Overview

Sketch your Life OS:

- What holds you
 - What guides you
 - What sustains you
-

Slide 8 — Principles

Principles are the rules you choose to live by.

Examples:

- “I honour my energy.”
- “I don’t abandon myself.”
- “I tell the truth kindly.”
- “I design within my constraints.”

Principles = your internal compass.

Slide 9 — Activity: Principles

Choose 3–5 principles.

Write what each looks like in practice.

Slide 10 — Rituals

Rituals are the anchors that stabilise your system.

Examples:

- Weekly planning
- Daily check-in
- Monthly reflection
- Creative hour
- Phone-free mornings
- Sunday reset

Rituals → consistency.

Slide 11 — Activity: Rituals

Choose 3 rituals that support your next chapter.

Slide 12 — Rhythms

Rhythms are your natural cadence.

Map:

- Daily rhythm
- Weekly rhythm
- Monthly rhythm
- Seasonal rhythm

Rhythms → sustainability.

Slide 13 — Activity: Rhythm Map

Define one rhythm you want to honour more intentionally.

Slide 14 — Constraints

Constraints aren't limits — they're clarity.

Examples:

- Time
- Money
- Health
- Kids
- Care responsibilities
- Emotional bandwidth

Design with them, not against them.

Slide 15 — Activity: Constraint Design

Name your top constraint.

Write how you'll design within it.

Slide 16 — Supports

Support is a design choice.

Support can be:

- People
- Tools
- Rituals
- Environment
- Systems
- Professional help

Support makes ambition sustainable.

Slide 17 — Activity: Support Map

List the supports you have.

List the supports you need.

Slide 18 — Non-Negotiables

Non-negotiables are the boundaries that protect your life.

Examples:

- Sleep
- Movement
- Creative time
- No work after 6pm
- One night a week alone
- One weekend a month offline

Non-negotiables → integrity.

Slide 19 — Activity: Non-Negotiables

Choose 3 non-negotiables.

Write how you'll honour them.

Slide 20 — Your Life Dashboard

A one-page clarity tool:

- Identity I'm growing into
- Values I'm honouring
- Current focus areas
- Active prototypes
- Energy priorities
- Boundaries I'm holding

- Supports I'm using
 - What I'm letting go of
-

Slide 21 — Activity: Life Dashboard

Create your one-page dashboard.

Slide 22 — Your Personal Manifesto

A manifesto is a declaration of:

- What you stand for
- What you refuse to shrink for
- What you're building toward
- What you're done carrying
- What your life gets to feel like now

This is your anchor.

Slide 23 — Activity: Manifesto

Write your manifesto in 5–7 lines.
Read it back to yourself.
Feel the truth in it.

Slide 24 — Close

One takeaway
One commitment
One next right move

You now have a Life Operating System.
This is the beginning of your next chapter.

Slide 25 — Further Reading & Resources

Books

- *The Crossroads of Should and Must* — Elle Luna
- *Essentialism* — Greg McKeown
- *The Practice* — Seth Godin

Talks

- “The Psychology of Your Future Self” — Dan Gilbert
 - “The Power of Vulnerability” — Brené Brown
-
